

Dear User,

As part of the ongoing migration of Bord Bia QA services to Microsoft Azure, we are now asking all users to complete testing and ensure connectivity at the new location for **qas.bordbia.ie**

This email outlines the required actions and key changes.

## Important Update

The qas.bordbia.ie application will be migrated on the **30<sup>th</sup> of June 2026** between 20:00 and 23:00, and is available for testing via a temporary Azure testing URL (see below for further details).

## Summary of Change

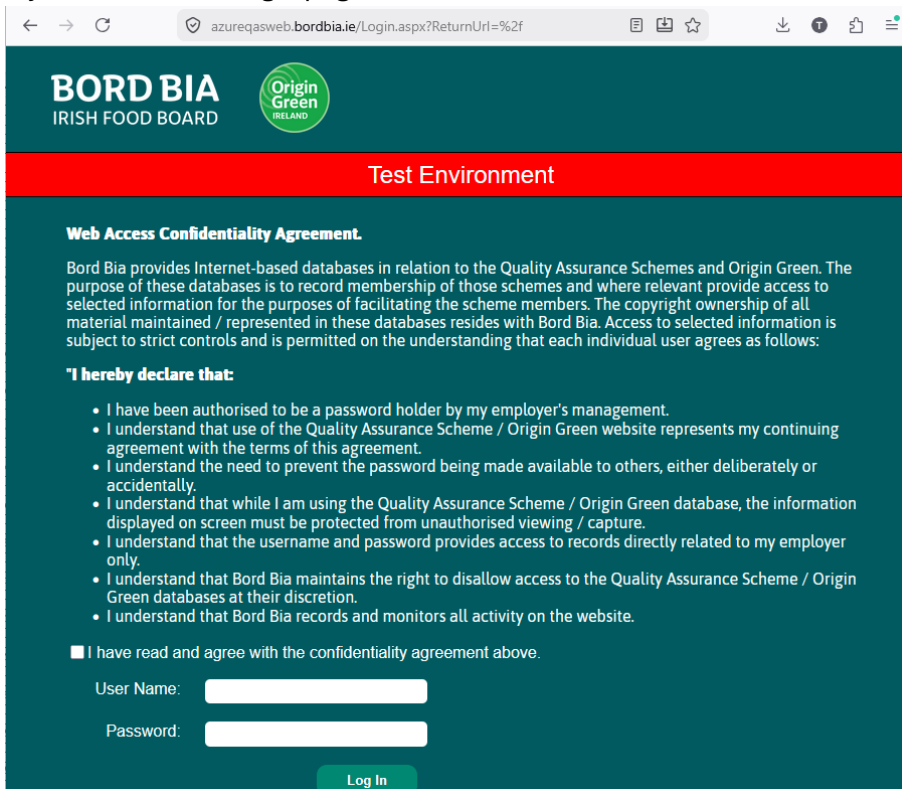

Qas.bordbia.ie is being migrated to Azure, which includes:

- A new host IP address
- No change to the existing URL or application

## Testing Required

Please complete the following before 26th June 2026:

- Ensure outbound HTTPS (port 443) access to the new IP address 20.82.219.252
- Confirm TLS 1.2 is enabled on all systems connecting to qas.bordbia.ie (TLS 1.0 and 1.1 are no longer supported)
- Verify that your firewalls do not rely on hard-coded IP addresses - the service must be accessed via hostname only
- Ensure your environment is configured to trust updated SSL certificates – failure to do so will impact continuity
- Confirm connectivity to the **temporary Azure testing URL** - <https://azureqasweb.bordbia.ie>  
This URL is not to be used post-migration.
- If you can see the Login page below then the browser test is successful:
